MINUTES:
Everyone reviewed the minutes from the previous meeting. There were minor corrections made to the document.

Dean Bell led the group in a discussion regarding the updated spreadsheets that reflect the college’s facilities. The spreadsheets were displayed through a projector for the group to see. The group agrees that we have made significant progress since our previous meeting.

Majority of the information on spreadsheet that the group created was provided from Vice Chancellor Peter Goldstein.

There will not be future meetings for the group unless anyone in the group has questions on the final draft of the assignment, which will be sent electronically to everyone when it is completed.

Dean Bell requested for the group to email him recommendations they believe should be given to the college in regards to physical facilities.
