GLOSSARY OF TERMS

• **APPA** – Association of Physical Plant Administrators of Universities and Colleges ([www.appa.org](http://www.appa.org)): This website provides information for educational facilities management departments regarding staffing standards.

• **FUSION** – Facilities Utilization Space Inventory Option Net ([http://fusion.deltacollege.edu](http://fusion.deltacollege.edu)): FUSION is dedicated to California Community Colleges in order to provide facilities assessment, planning, projection management, and evaluation. It hosts the inventory for many community colleges in California.

• **Replacement Cost**: The replacement cost is the price to replace specific facilities equipment.

• **Life Expectancy**: The life expectancy is an estimate of how many years specific systems have to last when brand new.

• **% of Life New**: Systems throughout the college are provided with a percentage of how long a system will last brand new.

• **% of Life Used**: Systems are provided with a percentage of how much life a system has left as of the date of the last inspection.

Please Note:

FUSION completed the inspection of all CCSF systems and also measured all the college buildings in early October, 2012.
