San Francisco Community College District Employees' Americans with Disabilities Act Accommodations Program

The Employee's Americans With Disabilities Act Accommodations Program (Employees' ADA Accommodations Program) was established to provide faculty and staff who have disabilities (as defined under applicable law) with reasonable accommodations, consultations and services. The Employees' ADA Accommodations Program works in concert with Human Resources and administrators to ensure that employees with disabilities (as defined under applicable law) have equal opportunities to do the essential functions of their jobs, with or without reasonable accommodations.

Employees with disabilities need to take the first step and self-identify by making an appointment with the ADA Coordinator in the Title 5/ADA Compliance Office. After a consultation, a confidential file is created, usually containing certification of disability and accommodations requested. The information employees divulge regarding their disability is confidential, and is stored separately from personnel records.
