

4/2/09 - 101B

**After the spring break, NO LECTURE. Just lab sessions.
This is NOT an April fools joke. No Lecture on 4/14 and 4/16.**

As JG once said: “Ah, I’ll wake up, have a cup of coffee and a donut...” and study some chemistry. ;-)

I will be out of town that week and Dr. R Fong will be covering our lab sections. See the updated lab schedule.

Your Check List of things to do for that week:

- **Check the 101B website for any updates.**
- **Email #3 assignment, by Tuesday 4/14 9:30 AM (see below)**
- **GCMS Analysis Packet – Due 4/27 & 4/28 at lab. This is your main assignment for the week.**
- **CPR#4 Text Entry by Friday, 4/17, at 5 PM.**
- **Practice Point Groups for Quiz #1 ; on 4/21**
- **Practice the Heteronuclear M.O. diagrams; for Quiz #2**
- **Email #4 assignment, by Saturday 4/18 Noon (see below)**
- **Go over Exam #3 mistakes.**
- **Possible Extra Credit assignment – will post to website.**

I will post solutions to PS#7 and Exam #3 over the break.

I will be available via email (pretty sure; check the website)

Email #3: How was your break? What is your study plan for the week?

Email #4: What did you accomplish? What questions do you have ?

Have a great break! =)

Oh... one more schedule adjustment.

Lecture on Tuesday 4/21 will start at 9:00 AM.

We’ll just have the quiz.
