

# INTRODUCTION

---

This is the Comments and Responses document for the City College of San Francisco (CCSF) Master Plan Environmental Impact Report (EIR). The Draft EIR was published on January 30, 2004 and the public comment period extended through March 17, 2004. A public hearing was held at CCSF on March 1, 2004 to receive comments on the accuracy and adequacy of the information presented in the Draft EIR.

All written comments submitted are reproduced in this document; a list of the commenters is provided in the table of contents. These comments are included in **Section 11.0, Comments and Responses**, and are followed by responses. A transcript of the public hearing and responses to the oral testimony given are also included in **Section 11.0**. Individual comments in the letters and transcript are bracketed and labeled; the labels correspond to the numbering of the responses. Where several comments refer to the same topic, a “topical response” has been prepared. The topical responses are presented in **Section 10.0, Topical Responses**.

Text changes to the Draft EIR that are made in response to comments are contained in **Section 12.0, Revisions to the Draft EIR**. The revisions are presented by EIR section, in the order of the sections presented in the Draft EIR. The revisions to the Draft EIR do not result in any new significant impacts or any substantial increases in the significant impacts already identified, and therefore, do not constitute “significant new information” as defined in Section 15088.5 of the CEQA Guidelines.

This Comments and Responses document, together with the Draft EIR as amended by the text changes indicated in this document, constitute the Final EIR for the CCSF Master Plan project.
