

New Course
Starts Spring 2012!

USGS

Environmental Geology

Geology 30 – 3 Units

Optional 1 unit lab also offered (Geol 30L)

The study of the nature and dynamics of Earth's near-surface environment (waters, atmosphere, soils, and landforms) and human interactions with it. Topics include climate and climate change, natural hazards (earthquakes, volcanoes, floods), resource management (mining, fossil fuels, groundwater), pollution (water quality and air pollution), monitoring, and political and human influences. UC/CSU

Mon/Wed 11:00-12:30 at Ocean Campus
Tue/Thu 1:00-2:30 at South East Campus

CRN 33961 Lewis, C.

CRN 33943 Grandy, C.
