

**Differences Between Seeing a Counselor by
Appointment vs. Drop In
To create an Educational Plan**

Appointment	Drop In
Guaranteed meeting time period, no waiting.	Wait time varies from 5 minutes to an hour.
Appointments can be scheduled for 30 or 60 minutes.	Drop In is not scheduled and might last only 15-20 minutes.
You can choose who you wish to see.	No choice, you see the Counselor on duty for the day.
Can discuss concerns/questions in detail such as graduation, transfer and major requirements, etc.	Quick questions only.
Counselor will have time to answer your questions.	You might feel rushed out of the office because other students are waiting for the same Counselor.
Counselors will help students with the decision making process to clarify their goals, and create an ed plan that reflects these goals up to 24 units.	Counselor will only be able to discuss your goals, and clarify them with the creation of a one semester ed plan, time permitting.
