TO: Prospective Bidders

FROM: Office of Facilities Planning & Construction
City College of San Francisco, Phone: 415-239-3572
50 Phelan Ave. S142 Fax: 415-239-3947
San Francisco, CA 94112

PROJECTS: Practice Field Project - Ocean Campus
50 Phelan Avenue
San Francisco, CA 94112

BID DATE: 7 May 2009 at 2:00 PM.

This Addendum forms a part of the Contract Documents and modifies the original Bidding Documents as noted below. In the case of difference with previous addenda, this addendum takes precedence. It is the responsibility of the Contractor to notify all parties from whom he accepts proposals for all changes in the Contract Documents covering this project. All other conditions remain unchanged. Acknowledge receipt of this addendum in the space provided on the Bid Form. Failure to do so may subject the Bidder to disqualification.

END of ADDENDUM NO. 2
Practice Field Project - Responses to Bidders' Questions

a. What percentage of work must the Prime Contractor do?
The District has no requirement for the percentage of work the Prime Contractor must do.

b. Are there any pre-qualifications required of the contractor?
Refer to Project Manual, Section H, "Contractor's Qualification Statement." The District expects the successful bidder to demonstrate that he/she has had at least five years of successful experience in construction of projects that are similar in scope: construction of retaining walls that are similar to the Practice Field project; preparation of sports field base and drainage system, and coordination of artificial turf installation; and coordination of existing utility systems with selective demolition activities.

c. Does the asphalt paving in the existing parking lot have any fabric in it?
No, it does not appear to have fabric.

d. What is the contractor's responsibility with regard to "wear and tear" on the roadway?
It will be the contractor's responsibility to document the existing conditions, and repair damages according to Specifications Section 01010, Part 1, Article 1.26 "Care of Existing Facilities."

e. What is the intended route of project site access by the contractor?
The Owner will review and approve the Contractor's proposed access route to the project site.

f. Where will the Contractor's staging area(s) be?
The Contractor's staging area can be located anywhere within "Proposed Work" area shown on Sheet T0.03, but the Contractor must adhere to the limitations stated in Specifications Section 01010.

g. When can pile driving be done?
The Contractor's work hours are in Specifications, Section 01010, Part 1, Article 1.10. Ideally, pile driving may be performed when classes are not in session. Summer Break is July 25 August 14. College holidays are noted on the College website - http://www.ccsf.edu.

h. Where is the electrical power source for the design-build?
In Parking Lot N, there is a new power pole at the corner of Havelock and West Road. This can be used as the electrical power source for the new lighting.
