Facilities Review Committee  
February 22, 2005

Members Present: Nicolas Atencio, Julia Bergman, Christian Bonifacio, David Gallerani, Peter Goldstein, Terry Hall, Larry Lauser, Joanne Low

Absent FRC members: Julia will phone Dave Lewis, Peter will phone Skip Fotch regarding their appointments to the FRC

Subcommittee Reports

Works of Art

CCSF 70th anniversary:
It was reported that CCSF will celebrate art at City College as the theme of our 70th anniversary next fall.

Olmec head
Various things still need to be done to complete the installation and creation of Frida’s garden

Whale Sculpture
The whales will arrive at the Carroll Street Warehouse on Thursday, Feb. 24. The arrival will be documented on film.

Pacific Basin Fountain
Bolivian-born artist Antonio Sotomayor created a beautiful & educational fountain for the GGIE; it is in storage on Treasure Island; a local art historian, Ann Schoebelen, mused that it would be great if CCSF could find “a few million” $ for the relocation and restoration of the fountain. (see attachment)

Parking & Transportation
Muriel Parenteau was elected the Chair.

Bicycle boot
Campus Police will begin using it.

Mission Campus @ Alabama Street - Parking
Access to the gated parking is not possible for the disabled; solutions are being discussed which include issuing clickers to faculty; creating a blue zone outside the gate for students.
Ocean Avenue Campus Parking Permits
80% of them are being sold online; summer 2005 California Drivers License will be added to Banner

Bicycle Racks- Ocean Avenue Campus
A proposal to add more racks in five additional locations was distributed. These will be installed during Spring Break.

No Left Turn from Cloud on to Phelan
Keep the language on the sign as it is.

Projects Subcommittee
Larry Lauser has not received any new proposals. He suggested that the Olmec head needs to have epoxy added at the base to completely stabilize it. Tobin will check into this.

Exercise Path
Larry has talked to Brad Duggan about adding an exercise path around the campus; this might be merged with the soon-to-be-published art walking tour/map for the Ocean Ave. campus.

Newspaper Racks
The Communication Committee has been discussing a proposal for new newspaper racks that would include advertising.

Items from previous FRC meetings:

Accreditation Report
Peter will email a draft of the facilities report to the FRC

Sand Furniture
There is a need for some receptacle in front of the Rosenberg Library/LRC for cigarettes butts - the entrance to the building looks disgusting.

Performing Art Complex
Four architecture teams will present their design concepts for the project on Monday, Feb. 28

Student Health/Classroom
Ground breaking is planned for early May.

Greenhouses
Might place 14 temporary classrooms on the site.

The next FRC meeting is March 23. The meetings of April 20 and May 11 will be devoted to the 2006 Bond Measure.
