I. Reports from the Committee Chairs

A. College Diversity Committee (Dr. Day)
   The planning for the Office of Equity and Diversity is in full speed. Once a report will be compiled, Dr. Day will bring it to the College Advisory Council.

B. Communication Committee (Francine Podenski)
   Francine Podenski, the chair of the Communication Committee stated that the Communication Committee also approved the idea presented by the Works of Arts Subcommittee to provide the college community with alternative business cards. The council approved the idea of an alternative card. However, additional details such as selection of the image has to be worked out. The second item was the EATV CH27 update. Representatives of the LinkTV and college representatives will meet to review the contract between these two entities. Francine Podenski will give further update as soon as more information will be available.
   As the last point of business, the Communication Committee gave an update on their work on the CCSF website. David Pilpel, the chair of the City’s Sunshine Ordinance Task Force was also present at that meeting. The main focus of the debate was the front page of the City College home page. This topic will be also on the Committee’s May agenda.

C. ITPC (David Yee)
   David Yee reported that in the Privacy Statement he will re-draft the paragraphs in AFT side letter. It will be finalized at their May meeting. The committee also suggested that the AFT and the District should revise the language usage in the letter and should attach the side letter as addendum in the contract.
   ITPC also got an update from Skip Fotch on the credit student ID cards. The ID card system has been implemented in Web4 and is ready for students to participate in the program. The Picture ID will not be issued during summer sessions due to minimum staff support. In spring ’07, the Picture ID program will be available on various campuses.
   The Banner 7 upgrade is on schedule and has entered the user testing stage. IT collected the testing plans and is moving forward to the March 27 final decision date.
   The Phase 1 of the Fiber Network is close to completion.
   Phase 2, Mission Campus online will be finished in about year and a half. In the 3rd and final Phase 3, the Chinatown Campus online will be finished. That will be done in about two and a half years.
   Finally, the Downtown Campus will demolish some areas on the 5th floor to provide lecture rooms in the computer lab for technology hands-on learning.
   The 300 series bungalows will be demolished in summer 2006. Two computer labs will be relocated to various locations.
