Facilities Review Committee

Minutes

December 3, 2008

FRC Members Present: Julia Bergman, Jim Blomquist, Peter Goldstein, Terry Hall, Jim Keenan, David Liggett, Don Santos, Ryan Vanderpol

FRC Subcommittee Chairs/Resources: Lani Battiste, Sunny Clark

CCSF Faculty & Staff: Steven Brown, Erika Delacorte, Deborah Levy, Will Maynez, Madeline Mueller, Crima Pogge, Mono Simeone, Jana Zanetto

Guests: Aditya Advani, Blaine Merker

Subcommittee Report - Health & Safety-Sunny Clark

1. Emergency Preparations: Campus maps will now reflect all emergency exits; David Liggett is working with the Deans to insure accuracy. Sunny will also work with building user groups to identify any ADA access requirements. Some buildings have public address systems but most do not; communication during an emergency needs to be planned for those locations.

2. First Aid Kits: The kits are replenished once a year by an outside service; Sunny is working to improve communications regarding this process.

3. Recycling: New signs, in multiple languages, stating the regulations regarding non-College can & bottle collecting, are being installed throughout the District; Campus Police will politely discourage the collectors.

4. Smoke-free Campus: Mono Simeone has studied the Ocean Campus map carefully and has proposed 6 possible smoking areas. Comments about the proposed locations should be forwarded to the Health & Safety Committee. This proposal would be a change in working conditions and needs to be negotiated with the bargaining units.

Agenda

1. Bikery - Richard Gordon
   The FRC switched into Project Subcommittee mode to receive a request for a permanent location for the A.S. Bikery. It is currently located in Ram Plaza under an awning. Location options, funding and the Bikery’s relationship with other A.S. clubs were discussed.
MSP by FRC members to support a permanent location for the Bikery; Jim Blomquist will assign someone to evaluate possible locations; a cost estimate will be determined; a source of funding will be sought.

2. Whale Fountain & Native Plant Garden
Adita Advani described modifications made to earlier location proposals for the Whale Fountain and a Native Plant Garden; the modifications were illustrated with a power point slide show by Blaine Merker. The goal is to “stitch” the campus together, to perceptually & physically bridge Phelan Avenue.

Option A, places the Whale Fountain at the base of the Science/Phelan steps. It provides balance to new reservoir development; can be incorporated into the plans for the Science/Phelan steps; is visually compatible with the Science Building; the native planting area has been expanded; there is high visibility for security; seating on either side has been added; it creates a grand entrance to the Ocean Campus.

Option B places the Whale Fountain on the west side, in front of the future Performing Arts Center (PAC); there is seating around the fountain.

There were many expressions of support for both options. Next step: the PAC users need to review the options and report to the FRC.

Final recommendation: FRC meeting January 21, 2009, R518.

3. Naming Proposal-College Archives for Austin White
Madeline Mueller provided the group with the current CCSF Naming Procedures (attached). The FRC does not vote on a recommendation but polls the users of the space to be named for their recommendation. The recommendation is forwarded to the Executive Council of the Academic Senate and to the College Advisory Committee; the latter group votes on the recommendation. FRC member David Gallerani, absent, asked that this topic be tabled until the next meeting, January 21, 2009.

4. Replacement Playing Field/Soccer Field
Marston will remain as it is currently; there will be a 4’ sidewalk along the street, a small section of the Judson slope will be used, no plants will be touched, there are no issues regarding emergency vehicles or traffic flow, no parking behind Batmale Hall will be lost.
MSP by FRC members to recommend this revised project.
College representatives will meet with Sunnyside Neighborhood Association representatives on December 15.
