
Grants Awarded

Maurice Kanbar
CCSF has been awarded funds to create an alumni database for the first time. Amount awarded: $100,000. Contact: Kathleen Alioto, 239-3816.

Louise and Claude Rosenberg, Jr.
CCSF has received funds to support night and weekend hours as well as technology upgrades at the library. Amount awarded: $250,000. Contact: Kathleen Alioto, 239-3816.

Proposals Submitted

Hewlett-Packard Technology for Teaching Grants
Computer company Hewlett-Packard makes these grants to bolster the innovative and effective integration of mobile technology in K-16 education settings. Grants focus on helping educators to build and share effective approaches and educational efforts to apply mobile technology into learning environments with other professors on campus and beyond. CCSF will use the funds and equipment provided from this grant to increase computer literacy and allow students to integrate computers into hands-on laboratory experiences in chemistry and physiology courses. Contact: Wing Tsao, 239-3669; Tim Su, 452-5647.

Proposals in Progress

Akonadi Foundation
We will submit a letter of intent to the Akonadi Foundation requesting funds to support the Multicultural Infusion Project (MIP). Application deadline: Letters of intent accepted on a rolling basis. Contact: Sue Homer, 239-3039.

New Opportunities (listed in order of application deadlines)

Please note that if you are interested in pursuing a grant, in conjunction with our office or on your own, you must notify the Office of Research, Planning & Grants to ensure there will be no overlap or conflict with existing grant activities.

U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration
Funds are available for Drug Free Communities Support Program (DFCSP) grants. DFCSP is a collaborative initiative sponsored by Office of National Drug Control Policy (ONDCP) and the Substance Abuse and Mental Health Services Administration (SAMHSA) in order to:
• reduce substance abuse among youth;
• help community coalitions strengthen collaboration;
• enhance intergovernmental collaboration, cooperation and coordination;
• enable communities to conduct data-driven, research-based prevention planning, and
• provide communities with technical assistance, guidance, and financial support.
The maximum allowable award for new DFCSP grants is $100,000 per year in total costs (direct and indirect). **Application Deadline: March 11, 2005.**

**U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration**
This initiative supports an array of activities to assist grantees in building a solid foundation for delivering and sustaining effective substance abuse prevention and related services. Specifically, the program aims to engage community-level domestic public and private non-profit entities to prevent and reduce the onset of substance abuse, and transmission of HIV and hepatitis among minority populations. The average annual award will range from $250,000-$350,000 per year in total costs (direct and indirect) for up to 5 years. **Application Deadline: March 17, 2005.**

**The Institute for Interactive Journalism, New Voices Project**
The Institute for Interactive Journalism invites U.S. nonprofit groups and education organizations to apply for funding to launch new community news ventures and to cooperate with J-Lab in spotlighting best practices and lessons learned. Funding is available for start-up news initiatives only. Ongoing efforts are not eligible to apply unless they are proposing a new venture. The maximum award amount is $17,000 over a two-year period. **Application Deadline: March 17, 2005.**

**Department of Education, Office of Postsecondary Education; Minority Science and Engineering Improvement Program (MSEIP)**
The MSEIP is designed to effect long-range improvement in science and engineering education at predominantly minority institutions and to increase the flow of underrepresented ethnic minorities, particularly minority women, into scientific and technological careers. Funds to be awarded range from $20,000 to $500,000, depending on type of project. **Application Deadline: March 21, 2005.**

**Education Department, Office of Special Education and Rehabilitative Services**
The Education Department invites applications for projects to provide individuals with disabilities recreational activities and related experiences to aid in their employment, mobility, socialization, independence, and community integration. Recreational services include, but are not limited to: vocational skills development; leisure education, leisure networking and leisure resource development; physical education and sports; scouting, camping, and 4-H activities; music, dancing, and art; and handicrafts and homemaking. Projects must provide recreational services to individuals with disabilities in settings with peers who are not individuals with
disabilities. Up to $140,000 per year for three years is available in funding. **Application Deadline: March 29, 2005.**

**National Science Foundation, Undergraduate Research Centers**

The Undergraduate Research Center (URC) Program seeks new models and partnerships with the potential (1) to expand the reach of undergraduate research to include first- and second-year college students; and (2) to enhance the research capacity, infrastructure, and culture of participating institutions, thereby strengthening the nation’s research enterprise. For this program, research should be in the chemical sciences or in interdisciplinary areas supported by the chemical sciences. Projects should provide exposure to research of contemporary scientific interest that is addressed with modern research tools and methods. Awards will be made as continuing grants for 5 years at up to $500,000 per year plus up to an additional $200,000 in the first year for equipment. **Application Deadline: letter of intent (required), March 7, 2005; full application, April 4, 2005.**

**National Science Foundation, Nanoscale Science and Engineering Education**

This solicitation continues a comprehensive effort on the part of the National Science Foundation (NSF) to enhance formal and informal education in nanoscale science, engineering, and technology. Its goals are to develop strong partnerships linking science educators with nanoscale science and engineering researchers, and to increase knowledge of advances in nanoscale research and technology and their impact on society. The Nanoscale Undergraduate Education (NUE) component aims at introducing nanoscale science, engineering, and technology through a variety of interdisciplinary approaches into undergraduate education, particularly in the first two collegiate years. **Application Deadline: April 6, 2005.**

For more information, visit: [http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=6669&org=EHR&from=home](http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=6669&org=EHR&from=home)

**National Endowment for the Humanities, Faculty Humanities Workshops**

Grants for Faculty Humanities Workshops support local and regional professional development programs for K-12 teachers and faculty at post-secondary institutions. Workshops should:

- extend and deepen knowledge of the humanities by fostering collaborative study of significant topics, texts, and issues;
- provide faculty with the opportunity to engage in rigorous intellectual inquiry, including reading, reflection, and discussion;
- involve scholars from outside the institution(s) who are experts on the topic of the workshop;
- use creative formats and programs to engage faculty members; and
- advance the study and teaching of the humanities at the participating institution(s).

Proposals to provide workshops for teachers with limited access to professional development in the humanities are encouraged. Funds may be used to pay for visiting scholars, books and other materials, logistical support, and appropriate release time for project staff. Faculty Humanities Workshop grants provide up to $30,000 in outright funds for projects serving a single institution;
regional or multi-institutional programs may receive awards up to $75,000. **Application Deadline: April 7, 2004.**

**Office of Postsecondary Education, Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP)**

GEAR UP supports early college preparation and awareness activities for low-income students. The GEAR UP program is a discretionary grant program designed to increase the number of low-income students who are prepared to enter and succeed in postsecondary education. GEAR UP provides five-year grants to States and partnerships to provide services at high-poverty middle and high schools. GEAR UP grantees serve an entire cohort of students beginning no later than the seventh grade and follow the cohort through high school. GEAR UP funds are also used to provide college scholarships to low-income students. Funds to be awarded range from $100,000 to $7,000,000 (see application for details). **Application Deadline: April 11, 2005.**

**Education Department, Early Childhood Educator Development**

The Education Department solicits applications to provide high-quality, sustained, intensive professional training for early childhood educators in how to provide developmentally appropriate science-based school-readiness services for preschool-age children. The Education Department is especially interested in applications that focus on development of those who work with young children, infants, or toddlers with limited English, disabilities, or other special needs. Another area of interest is applications that focus on specific science-based curricula used to promote school readiness in language, cognitive development, early ready and numeracy skills, which also have standardized training procedures and published curriculum materials to support implementation. The project period is three years, with $2.5-5 million available each year. **Application Deadline: April 22, 2005.**

**Previously Listed Grant Opportunities Still Available (ordered by application deadline)**

**National Endowment for the Arts, Access to Artistic Excellence**

**NSF, Advanced Technological Education Program**

**How to Reach Us**

For further information on opportunities related to federal, state or local funding agencies, please contact **Kristin Hershbell Charles**, Associate Dean of Grants and Resource Development (239-3677, kcharles@ccsf.edu).
For questions regarding **post-award grant administration**, contact **Marguerite Versher** (239-3979, mversher@ccsf.edu).

Finally, should you know of alumni, retired members of the College family or anyone else with a commitment to CCSF who might wish to **make a planned gift or other donation**, please email **Dr. Kathleen Sullivan Alioto** at ksalioto@ccsf.edu.

If you know of anyone who would be interested in receiving our Institutional Advancement Bulletin, please send her/his name and email address to kcharles@ccsf.edu so that we can add her/him to our mailing list.
