Grant/Project Title: ESL Citizenship/Civics

Award Amount: $300,000

Funding Source: State Chancellor's Office

Award Date: February, 2001

Abstract:

Funds from the State Chancellor’s Office for ESL Citizenship/Civics education support the creation and institutionalization of programs that develop ESL citizenship curriculum with a strong civics focus and the provision of opportunities for students to work with community service programs. Through this project, the Teacher Resource Center assists the Transitional Studies and ESL departments to emphasize cross-disciplinary teaching methodologies; provide training in emerging educational initiatives; support strategic planning, create joint projects of community involvement and guided volunteerism; and develop student-oriented curricula that integrates ESL and civics education while promoting values and principles for the common good and collective civic engagement.
