Grant/Project Title: Joint Use Facility

Award Amount: $50,000

Funding Source: San Francisco Foundation

Award Date:

Abstract:

Funds from the San Francisco Foundation support CCSF, and its partners San Francisco State University, the San Francisco Unified School District, California Pacific Medical Center and BART, in the development of a plan for a building site. This site will house programs to educate and train CCSF students for careers in childcare development, teaching, and health related professions. The plan investigates providing a full inclusion lab environment for children, including children with learning distinctions, from birth through 12 years.
