Grant/Project Title: Workforce Development Instructional Equipment for Business Education

Award Amount: $85,904

Funding Source: State Chancellor’s Office - Vocational & Technical Education Act (VTEA)

Award Date:

Abstract:

VTEA funds support the CCSF Computer Information Science Department’s (CIS) Cisco Networking Certificate Program (CCNA), enabling expansion and improvement of the program. By upgrading existing hardware and software, adding computer stations, and offering professional development of instructors, CCNA aims to double its enrollment to serve 1000 students each year. CIS looks to use the new equipment in the future to provide an intermediate level Cisco training leading to the Cisco Certified Network Professional Certificate.
