1. Sexual Assault on Campus Policy Statement AB1088

Any sexual assault or physical abuse, including, but not limited to, rape, as defined by California law, whether committed by a student, faculty, staff, administrator, visitor, or invitee of City College of San Francisco, occurring on District property, or on an off-campus site or facility maintained by the District, or on grounds or facilities maintained by a student organization, is a violation of District policies and regulations, and is subject to all applicable punishment, including criminal procedures and employee or student discipline procedures. (See also AP 5500, Standards of Student Conduct.)

“Sexual assault” includes but is not limited to rape, forced sodomy, forced oral copulation, rape by a foreign object, sexual battery, or threat of sexual assault.

These written procedures and protocols are designed to ensure victims of sexual assault receive treatment and information. All students, faculty, staff, administrators, visitors, or invitees of City College of San Francisco who allege they are the victims of a sexual assault on District property shall be provided with information regarding options and assistance available to them. Information shall be available from the Office of Student Advocacy, Rights and Responsibilities / Student Health Center, which shall maintain the identity and other information about alleged sexual assault victims as confidential unless and until the Office of Student Advocacy, Rights and Responsibilities / Student Health Center is authorized to release such information.

All alleged victims of sexual assault on District property shall be kept informed, through the Office of Student Advocacy, Rights and Responsibilities / Student Health Center of any ongoing investigation. Information shall include the status of any student or employee disciplinary proceedings or appeal; alleged victims of sexual assault are required to maintain any such information in confidence, unless the alleged assailant has waived rights to confidentiality.

The District shall maintain the identity of any alleged victim or witness of sexual assault on District property, as defined above, in confidence unless the alleged victim or witness specifically waives that right to confidentiality. All inquiries from reporters or other media representatives about alleged sexual assaults on District property shall be referred to the Chancellor’s Office of Public Information, which shall work with San Francisco Community College Police Department to assure that all confidentiality rights are maintained.

2. Sexual Assault on Campus Policy

2.1. Introduction

The San Francisco Community College District recognizes that sexual violence is a serious issue. The District seeks to ensure that members of its campus community are aware that such behavior is prohibited by law and by District policy and that the District will not tolerate acts of sexual assaults in any form, including rape, on any of its campuses. The District seeks, by virtue of the adoption and publication of this Policy, to educate the campus community so as to prevent occurrences of sexual violence. The District will take appropriate actions to correct and discipline behavior that is found to violate the District policy or state regulations regarding rape and sexual assault (For policies regarding physical assaults/violence, see also AP 3500, 3510, and 3515.)

2.2. Purpose

The District's goals are to create a supportive climate that encourages each victim/survivor of sexual violence to report the incident(s) and to provide support and information to assist her (or him) in dealing with these traumatic events, while respecting the victim/survivor's right to choose whether or not to report. This Policy also intends to promote campus safety through prompt and confidential reporting of sexual violence incidents to appropriate campus officials.

2.3. Definitions

Complainant: A student, faculty, staff, administrator, visitor, or invitee of City College of San Francisco who believes herself (or himself) to have been sexually assaulted and who engages the City College of San Francisco sexual assault complaint procedure. If the alleged perpetrator of a sexual assault is a faculty or staff member at CCSF, the victim/survivor will have the option of initiating a complaint with the District Office of Affirmative Action at (581-5020).

Rape: The California Penal Code prohibits acts of rape, some of which are summarized as follows: (a) sexual intercourse against a person's will accomplished by force or threats of bodily injury; sexual intercourse against a person's will where the person has reasonable fear that she (or he) or another will be injured if she (or he) does not submit to the intercourse; (c) sexual intercourse where the person is incapable of giving consent, or is prevented from resisting, due to alcohol or drugs, and this condition was known, or reasonably should have been known

by the accused; (d) sexual intercourse where the person is incapable of resisting because she (or he), at the time, is unconscious or asleep, and this is known to the accused; and (e) sexual intercourse where the person is incapable of giving consent or resisting due to youth (under the age of 18), and this condition was known, or reasonably should have been known by the accused. (See also California Penal Code 261.)

Sexual Assault: Sexual Assault includes threats of sexual violence (section 67385(d), Calif. Ed. Code), incest (between persons who are related to each other within the degrees wherein marriage is prohibited by law), statutory rape (with a person who is under statutory age of consent), and, as defined by the California Penal Code, forced sodomy (anal intercourse), forced oral copulation (oral-genital contact), rape by foreign object (forced penetration, however slightly, by a foreign object, including a finger, into a genital or anal opening), and sexual battery (the unwanted touching of an intimate part of another person for the purpose of sexual arousal). It also includes situations when the accused sexually assaults a complainant incapable of giving consent, including where the complainant is prevented from resisting due to alcohol or drugs or youth (under the age of 18) and this condition was known, or reasonably should have been known by the accused. Except where otherwise necessary, this policy will hereinafter refer to both rape and sexual assault simply as "sexual assault."

NOTE:

Forced intercourse or other unwanted sexual contact is defined as sexual assault whether the assailant is a stranger or an acquaintance of the complainant.

Intoxication of the assailant shall not diminish the assailant's responsibility for sexual assault.

2.4 Responsibility

The Campuses' first responsibility in responding to reports of sexual assault is attending to the needs of the individuals involved. All potential first responders who are affiliated with City College of San Francisco shall go through a formal training on how to assist victims/survivors of sexual assaults. All reports of sexual assault are taken with the utmost seriousness, and the victim/survivor will be referred to the appropriate persons or units for assistance. The Campuses are also responsible for ensuring that the individual charged with committing the assault is treated fairly. The alleged assailant will be presumed innocent until proven guilty and will be referred to appropriate services for assistance.

A City College of San Francisco employee reporting a recent incident of sexual violence should be advised to speak to her (or his) supervisor; a student should be directed to the Student Advocacy, Rights and Responsibilities. Each also should be directed to the San Francisco Community College Police Department for reporting or other options as appropriate. It is not the function of any campus representative to urge a particular course of action upon the victim/survivor.

2.5 Confidentiality

Under this policy, an affected individual will be accorded the right to privacy, and confidentiality will be maintained other than in circumstances where there is a need to know and to the extent permitted by District policy and California law. Extremely sensitive information is gathered during the investigation of a complaint of sexual assault. California law provides constitutional and statutory protection for the privacy of the individual and specifically allows a complainant of sexual violence to report as "Jane Doe" or "John Doe" in order to maintain confidentiality. To protect the individual's privacy rights, the names of individuals or other identifying information, especially which contained in written documents and notes, will only be disclosed to third parties if prior written permission is given by the individual concerned or to those authorized by state or federal law to receive such information.

The Office of Student Advocacy, Rights and Responsibilities is responsible for ensuring the alleged victim/survivor is kept informed of any ongoing investigation. Information shall include the status of any student or employee disciplinary proceedings or appeal; the alleged victim/survivor is required to maintain any such information in confidence, unless the alleged assailant has waived rights to confidentiality.

2.6 Policy Summary

The District policy on sexual assault applies to all members of the campus community, including students, faculty, staff, administrators, visitors, and invitees of the College. Any sexual assault or physical abuse, including, but not limited to, rape, as defined by California Penal Code, whether committed by an employee, student, or member of the public, occurring on District property, or on an off-campus site or facility maintained by the District, or on grounds or facilities maintained by a student organization, is a violation of the District policy and state regulations, and is subject to all applicable punishment, including criminal procedures and employee or student discipline procedures. (See also AP 5500, Standards of Student Conduct.) It is also District policy to actively prevent rape and sexual assault. The District maintains a zero tolerance standard concerning sexual violence.

3. Sexual Assault on Campus Procedures

3.1 *Campus Response to Sexual Assault*

The College defines the following procedures to be used by all Campus representatives when contacted by alleged victims/survivors of sexual assault. Campus representatives should seek to assist victims/survivors in regaining control of their lives. To the extent possible, victims/survivors should be encouraged to make their own decisions and choices following a sexual assault.

The Campus representative's first concern shall be for the medical or psychological welfare of the person. If the individual is in a crisis warranting immediate intervention, the Campus representative must follow departmental emergency procedures and/or call the San Francisco Community College Police Department at (415) 239-3200. The campus representative should provide a safe and comfortable place for the victim/survivor in which to discuss the options available and reach a decision.

Listed below are the steps that shall be taken by a Campus representative if a City College of San Francisco student, faculty, staff, administrator, visitor, or invitee discloses that she (or he) was sexually assaulted on campus:

Step 1: Attend to the immediate emotional crisis. Listen with compassion and ask the individual what she (he) may need.

Step 2: Communicate to the victim/survivor the importance of medical attention and discuss whether immediate assistance is needed. Medical attention is vital for detecting and treating a range of medical concerns, including sexually transmitted diseases, pregnancy, and injuries. Treatment for HIV prevention must be administered within seventy-two (72) hours after the rape, the sooner the better. Preventive measures against pregnancy and treatments for sexually transmitted infections must begin as soon as possible.

Seeking medical treatment and permitting the collection of medical evidence does not commit the victim/survivor to making a police report. At a later time, however, if the victim/survivor chooses to report to the police, physical evidence collected soon after the assault will maximize the effectiveness of the legal proceedings.

The need for immediate medical attention can be met at the Student Health Center, whether or not a victim/survivor decides to make a police report. However, there is no need to go to Student Health Services first. Victims/survivors who agree to seek initial medical assistance following a sexual assault are referred to the San Francisco Rape Treatment Center at

San Francisco General Hospital without showering, cleaning up, or changing clothes as doing these things could destroy evidence.

If transportation is needed, the Office of Student Advocacy, Rights and Responsibilities / Student Health Center will coordinate transportation to a medical facility. The San Francisco Community College Police Department also can provide transportation.

Additionally, the Student Health Center will provide follow-up testing and health care of registered students who are, or have been, victims/survivors of sexual assaults, regardless of where or when the assaults took place.

Step 3: Determine whether the victim/survivor wishes to report the incident to the San Francisco Community College Police Department.

The role of law enforcement is to fully investigate and document all reports of sexual violence. The victim's/survivor's request for anonymity and confidentiality is to be honored to the extent permitted by law and District policy (see 2.5 Confidentiality).

It is important for the victim/survivor to know that there is a seventy-two (72) hour time period in which important forensic evidence (e.g., sperm and/or skin fragments for DNA identification of an assailant) can be collected and later used in judicial procedures if the survivor desires to prosecute. If the victim/survivor wishes to have evidence collected, medical treatment and collection of forensic evidence must be expedited.

Step 4: Communicate to the victim/survivor the importance of psychological support and discuss with her (him) whether immediate assistance is needed.

The Campus has resources and referrals to assist with psychological needs that arise in the initial crisis of assault, as well as in the aftermath and longer-term recovery. (For directories of available resources, see Appendices C, D, E, and F.)

Step 5: Inform the victim/survivor that Campus Disciplinary Proceedings and Action will be carried out according to policy and procedures as published by the Office of Student Advocacy, Rights, and Responsibilities.

3.2 Office of Student Advocacy, Rights and Responsibilities - Response to Sexual Assault

The Office of Student Advocacy, Rights and Responsibilities shall provide each affected individual with the following: a copy of the District policy on sexual assault, including the documents “*What to Do if You are Sexually Assaulted/Raped*” and

“*Victim/Survivor’s Rights*,” a list of campus representatives to be notified if the complainant (victim/survivor) consents, a description of available services and the persons on campus available to provide those services if requested, and a description of procedures for criminal prosecution, civil prosecution (i.e., lawsuit), and District disciplinary procedures.

If the accused student and victim/survivor have contact within academic buildings, Office of Student Advocacy, Rights and Responsibilities will determine whether a directive to refrain from contact with the alleged victim/survivor should be issued to the alleged perpetrator. Office of Student Advocacy, Rights and Responsibilities also will be responsible for making the determination whether interim suspension should be invoked against the alleged perpetrator.

3.3 District Response to Complaint of Sexual Assault

At the request of the complainant (victim/survivor) and upon the receipt of a written and signed complaint or verbal report, the Office of Student Advocacy, Rights and Responsibilities shall initiate an investigation and notify the San Francisco Community College Police Department at (415) 239-3200. If the Student Advocacy, Rights and Responsibilities determines that circumstances so warrant, the Student Advocacy, Rights and Responsibilities shall initiate an investigation with or without the consent of the complainant.

The Student Advocacy, Rights and Responsibilities shall notify the Vice Chancellor/Chancellor, the appropriate faculty, staff or students, and the alleged assailant that an investigation is underway and provide the names of the parties involved.

The Student Advocacy, Rights and Responsibilities shall conduct a prompt, full, and impartial investigation. The complainant is entitled to due process and shall have an opportunity to present evidence and a list of relevant and material witnesses.

A complaint for sexual assault shall be filed within forty (40) days from the conduct giving rise to the complaint. The investigation shall generally be completed within thirty (30) days of the receipt of the complaint.

The time period for investigation may be extended by mutual consent of the parties or for good cause, including the complexity of the issues under investigation and the unavailability of relevant witnesses due to semester recess. Both the complainant and the accused will be informed of any extension of the investigation. At the conclusion of the investigation, the Student Advocacy, Rights and Responsibilities shall submit a written report to the Vice Chancellor/Chancellor.

The report shall include a description of the facts, the remedy sought by the complainant, and recommendations for further action if deemed necessary by the Student Advocacy, Rights and Responsibilities . These recommendations shall be based upon the strength of evidence against the accused, the seriousness of action(s) that led to the complaint, and the remedy sought by the complaint. If assault is found, the City College

of San Francisco Community College District will implement such action as is necessary to correct the situation and to prevent it from recurring. The complainant and the accused will receive written notice of the District's proposed determination regarding whether an assault occurred and of the disposition of the complaint.

The complainant or the accused may request reconsideration of the District's proposed determination by submitting additional relevant evidence, identifying errors of fact or of standards applied in the investigation or determination, or showing that further investigation is necessary. A request for reconsideration of the District's proposed determination must be made to the Student Advocacy, Rights and Responsibilities in writing within ten (10) calendar days of receipt of the Notice of Proposed Determination. The request for reconsideration must clearly specify the basis for making the request.

Within five (5) calendar days of receiving a request for reconsideration from either the complainant or the accused, the District will provide written notice to the other party that such a request has been made.

3.4 Procedures for Criminal Prosecution, Civil Prosecution (i.e., Lawsuit), and District Disciplinary Procedures

A person interested in pursuing civil litigation is urged to contact legal services. San Francisco Community College is not responsible for legal expenses.

It is unlawful for anyone to retaliate against someone who files a sexual assault complaint, who refers a matter for investigation or complaint, or who participates in an investigation of a complaint. It is also unlawful for anyone to retaliate against anyone who represents or serves as an advocate for a reported survivor or alleged offender, or who otherwise furthers the principles of this policy of Sexual Assault on Campus.

3.5 The Annual Security Report

The San Francisco Community College Police Department will keep and maintain an annual security report that includes the following:

- 3.5.1 A description of educational programs to promote the awareness of sexual assault
- 3.5.2 Procedures to follow if a sexual assault occurs
- 3.5.3 Information on a victim/survivor's option to notify appropriate law enforcement authorities, if she (he) so requests
- 3.5.4 Information about existing services available for victims/survivors

- 3.5.5 Information on changing a victim/survivor's academic situation after an alleged sexual assault, if those changes are requested by the victim/survivor and are reasonably available
- 3.5.6 Procedures for campus disciplinary action, including statements that 1) the accuser and the accused are entitled to the same opportunities to have others present during a disciplinary proceeding; and 2) both the accuser and the accused must be informed of the outcome of any institutional disciplinary proceeding.
- 3.5.7 A description of the sanctions the campus may impose following an outcome of a disciplinary proceeding.

3.6 Education and Prevention Information

The representatives from the New Student Counseling, Project SURVIVE, San Francisco Community College Police Department, Student Health Services, and other appropriate representatives will provide, as part of each campus's established orientation programs, education and prevention information about sexual assault. The information will be developed in collaboration with campus-based and community-based survivor advocacy organizations and will be open to the public. Campus representatives from the aforementioned departments will also post prevention and education information on sexual violence on City College of San Francisco internet websites (See Appendix G).

3.7 Procedure Summary

- 3.7.1 If a victim/survivor was assaulted on campus, she (he) would be strongly urged to call (415) 239-3200 for San Francisco Community College Police Department to come to her (his) aide. This is be done by pressing the "CCSF Police" button on any District desk telephone, pressing "#1" on any District pay telephone, or picking up any campus yellow campus emergency phone. Additionally, if victim/survivor prefers, and the offices are open, she (he) may obtain services through Office of the Student Advocacy, Rights and Responsibilities, the Student Health Center and or any of the Deans, Vice Chancellors, or the Chancellor's office.
- 3.7.2 City College of San Francisco will investigate all allegations of sexual assault and appropriate disciplinary, criminal, or legal actions, with the cooperation of the victim/survivor. We understand and affirm the right of victims/survivors to choose whether or not to report incidents of sexual assault. If a victim/survivor chooses to report an incident of sexual assault, she (he) should do so as soon as convenient, and preferably within 72

hours. The victim/survivor should report the incident, including date or acquaintance rape, to the San Francisco Community College Police Department at (415) 239-3200.

3.7.3 The victim/survivor should make every attempt to preserve any physical evidence of the assault. This may include a voluntary medical exam, not showering, or disposing of any damaged clothing, or other items that are present after/during the assault. If assaulted on district property, the victim/survivor shall seek medical attention at Student Health Center (415) 239-3192 or call the Student Advocacy, Rights and Responsibilities (415) 239-3762 during regular business hours. During after hours, she (he) should call the San Francisco Community College Police Department at (415) 239-3200. If assaulted on non-District property, the victim/survivor should seek medical care at the San Francisco Rape Treatment Center (415) 206-7273 or go to the nearest local emergency room.

3.7.4 If the victim/survivor was assaulted on a non-District property, she (he) should call San Francisco Rape Treatment Center (415) 206-3222, San Francisco Women Against Rape (SFWAR), 24-hour crisis line: (415) 647-7273, or dial 911 and seek the assistance of the local police, National Rape Crisis Hotline/Nationwide RAINN: 1-800-656-4673, Bay Area Women Against Rape (BAWAR) in Oakland 24-hour crisis line: (510) 845-7273, and (510) 430-1298 (office), Rape Trauma Services in Peninsula (650) 652-0598 where services in both Spanish and English are provided.

3.7.5 Please ask the victim/survivor to seek professional psychological counseling service as soon as convenient. Campus representatives who responded and supported the victim/survivor are also encouraged to seek psychological counseling services as soon as convenient.

3.7.6 With a finding of culpability, District disciplinary procedures will be initiated on the perpetrators, ranging from suspension to expulsion. Due process and privacy will be afforded to the accuser and the accused.

4. Appendices

4.1 *Appendix A: “What to Do If You Are Sexually Assaulted/Raped”*

If you are in immediate danger, call 911 or 239-3200, use a yellow emergency callbox, and press the “CCSF Police” button on any campus desk telephone or “#1 on any campus pay telephone

Go to a safe place. This is not the time to be alone. At the very least, you need emotional support. If there is no one to go to, call someone you can talk to, no matter how late it is. Places on campus where you can get help are the Student Health Center, the Office of the Student Advocacy, Rights and Responsibilities, San Francisco Community College Police Department, or any counseling or administrator’s office.

Get medical attention. As soon as possible, go to a hospital or the Student Health Center to be examined and treated for any injuries or infections. For example, treatment for HIV prevention must begin within a seventy-two (72) hour period after the assault/rape, but the sooner the better. You may want to take measures to prevent pregnancy as soon as possible. At the very least, you need to get tested and maybe treated for various sexually transmitted infections. You can seek medical treatment and provide medical evidence without having to report to the police. If you choose to report later, physical evidence that was collected soon after the assault would make legal proceedings more effective.

Report the assault to police and campus officials, whether or not you plan to file charges. Reporting a rape does not commit you to filing charges but does make filing a charge easier at a later date. When you make your report, you may take someone with you. You can go the next day, but the sooner the better. Rarely do rapists attack one person only, they get away with it and so they continue to do it. A report may be filed with the Office of Student Advocacy, Rights and Responsibilities, City College of San Francisco Police Department and/or San Francisco Police Department. If the perpetrator of the assault is a faculty or staff member at City College of San Francisco, you have the option of initiating a complaint with the District Office of Affirmative Action at (415) 581-5020.

If you decide to report, physical specimens collected soon after the sexual assault will be valuable evidence. Do not shower or clean yourself first. If you change, place your clothes in a paper bag. Do not destroy or wash the clothes you were wearing. The Student Health Center is not an “evidence collection” site, so if you do want to file charges, arrangements will be made for you to go to San Francisco Rape Treatment Center at San Francisco General Hospital, which is designated as the “evidence collection” site for sexual assaults that occur in San Francisco. You have the right to choose whether or not to report and/or file charges.

Consider whether you want to file charges with the police and/or with campus authorities. Pressing charges can be a long, painful process. Each person must decide for themselves, based on their own circumstances, whether it makes sense to go through it. Social Services staff is available to help you consider the pros and cons of filing charges. You may also speak with San Francisco Police Department about what will happen before your decision.

4.2 *Appendix B: Victim/Survivor's Rights*

1. To be treated with respect, dignity, and courtesy and without prejudice based upon race, class, lifestyle, sex, age, occupation, or religious beliefs;
2. To receive emotional and psychological support services and advocacy;
3. To have the assistance of Campus personnel in obtaining and securing evidence;
4. To receive private and confidential examination and treatment for personal injuries, sexually transmittable disease, and pregnancy;
5. To be informed and ask questions regarding examinations and treatment given;
6. To the strictest possible confidentiality in incident and medical records, unless release of information is agreed;
7. To receive current information on campus and community resources;
8. To be informed of the options available through the college and the legal system;
9. To seek criminal charges and/or file a disciplinary complaint;
10. To be considered as credible as a person reporting any other crime;
11. To be asked only those questions which are relevant to law enforcement investigation or medical treatment;
12. To be informed of the status and outcome of any student or employee disciplinary proceedings or appeal;
13. To be given the choice to prosecute or not to prosecute;
14. And to have feasible class schedule adjustments (without academic or financial penalty) as necessary to minimize the potential contact with the alleged assailant or those associated with the alleged assailant.

4.3 *Appendix C: Key Campus Representatives to Be Notified in the Event of a Sexual Assault, Should the Victim/Survivor Chooses*

When any one of the campus offices listed below is notified of a sexual assault on or near a CCSF District property, that office should immediately notify the other offices so listed without divulging the survivor’s name unless permission has been obtained.
