## Student Health Center dedicated

## House Democratic Leader Nancy Pelosi delivers keynote

Dr. Natalie Berg (far left, above) introduced Congresswoman Nancy Pelosi, D-San Francisco (above), and thanked her for securing \$750,000 in federal funds for equipment for the College's health education programs, with \$400,000 of that money earmarked to equip the new Student Health Center. Pelosi noted, "The students at City College of San Francisco are our nation's next generation of leaders. They deserve the best health services so they can continue to succeed. That is why I am so proud that CCSF students will have the state-of-the-art health care center. I salute the continued efforts of CCSF's faculty, administrators and health care staff to provide a world class educational experience here in San Francisco." Also pictured above are Dr. Philip R. Day, Jr., Chancellor (center) and Sunny Clark (left), Chair, Student Health Center. In photo at left cutting the cake at the reception following a dedication ceremony are (left to right) Trustee Lawrence Wong, Clark, Pelosi, Dr. Berg and Dr. Day. Not pictured are Trustees Johnnie L. Carter, Jr., Dr. Anita Grier, Milton Marks, Rodell Rodis and Student Trustee Derick Brown.

## LETTER TO THE EDITOR

# Thank you from Sunny Clark to all who helped with new Student Health Center

### To the unsung heroes and heroines,

On August 18, 2006, during the Grand Opening of the new Health Center, so much of the limelight was on the dignitaries and me, however, please know that the perfect Grand Opening ceremony was possible only because of you; all the heroes and heroines of this institution.

Our Grand Opening Day is over but I cannot sleep without publicly sharing with you the real EXTRAORDINARY work that made the move and getting ready for the first day of clinic on Wednesday August 16th and the Grand Opening Day possible.

At first I was upset when our Chancellor moved the Grand Opening Day from after Labor Day to barely three weeks after our last day of summer clinic. However, in his infinite wisdom or experience, he must have known that the push was essential for the momentum. The push made us work and move at a dizzying pace. The last day of summer session ending on July 28, and the expected first day of clinic on August 16, and having to move some 35 years of important and some un-important "stuff" showed us who we really are. This pressured opportunity showed the best of so many people on my staff, staff members on this campus, our family members and our friends, making it the most heartwarming experience one could ever hope to experience.

The organization of packing and unpacking and re-organizing into a totally new layout took the dedication and unparal-

leled efforts of most of my staff but most notable were **Margaret Mendiola** and her band of student workers and volunteers representing the classified staff; **Paula Cahill**, our only full time nurse practitioner, and her medical assistant and volunteers. It was no small feat for these two taking charge of getting all the medical records and clinical supplies moved making it possible for us to open the first day of school, August 16. We knew we had wonderful students at City College who are capable and generous but **Chris Brodie** and **Eri Ikeda** took the prize. These two donated over 100 hours helping with the move and working at the intake desk. The two dedicated and seasoned front office staff, **Juddie Woods** and **Donna O'Rourke** kept us upbeat, sane and giggling with their sense of humor and cheerleading. Although the biggest work was within the building; without the help of the following departments and individuals all would not have been possible: the movers and the shakers from **Jim Keenan's** department for answering our begging for many additional moves, the carpenters, the painters, the locksmiths, the gardeners; all the layers of **Kathy Hennig's** department for so many orders to be placed, trouble shooting all the problems that go along with buying and returning damaged goods; **Jim Blomquist** and all his department for ordering support; additionally Jim Blomquist and **Craig Peterson** for putting up with me for pointing out things that needed fixing on a daily and

# Biology Seminar Series Fall 2006

The Biology Department of City College of San Francisco announces its Lecture Series for Fall 2006. Seminars are held at the Ocean campus and are co-sponsored by the City College Concert and Lecture Series. The lectures are free and open to the public.

The first lecture will be held **Friday, September 8** at 12 NOON in Science 300. **Christian Hellwig**, Biologist, Alcatraz Island, Golden Gate National Recreation Area, will talk about *Living in Harmony on Alcatraz: How 5,000 visitors a day can share a 22-acre island with thousands of*

*nesting seabirds*. A trip to Alcatraz Island, GGNRA, is a highlight of a visit to San Francisco for more than a million people each year, but in addition, the Rock is home to thousands of nesting seabirds and their chicks, and has been so with little interruption since the last ice age's end. Balancing protection of cultural resources and natural resources, and the quality of the visitor experience is a challenge. Seabirds are easily disturbed and discouraged from nesting by various activities including airplane over flights, fishing boat activities, and visitor or staff entry into nesting areas. At the same time, Alcatraz offers the visitor the chance to see, at very close range, the spectrum of breeding season activities and to gain an appreciation for some of our local wildlife.

Further installments of the series will include:

- *A Tale of Environmental Destruction and Challenges: A Report from Post-Katrina New Orleans*, **Carole Toebe**, Ph.D. Biology Department Chair, City College of San Francisco, **Friday, September 29**, 12 NOON, Science 300.

- *Zoo Veterinary Medicine*, Dr. **Freeland Dunker**, Head Veterinarian, San Francisco Zoo, **Friday, October 13**, 12 noon, Science 300.

- *Hematopoietic Stem Cell Transplantation for Children with Primary Immunodeficiency Diseases*, **Morton Cowan**, M.D. Professor of Pediatrics, Chief, Bone Marrow Transplant Division, Medical Director, BMT Unit and Laboratory, UCSF Children's Hospital, **Friday, October 27**, 12 NOON, Science 300.

at times hourly basis...IT staff: **Tim Ryan, Jim Tang, Robert Lam, Jerry Van Cleve** and **Allen Lin** for helping us to order and set up our computers, **Linda Aceves, Chris Bussard, Vicky Barrera Judy Shreve** and **Luis Muniz-Maya** for helping us set the phones and many more of our colleagues and staff throughout the district for their unwavering and unprecedented support.

The Grand Opening Day was made possible by the constant supportive worry of our Chancellor like a man waiting patiently in the delivery room of his first born, detail work of **Martha Lucey** and her staff for the lovely invitations, the program, the banner, and preparing for the media; **Hilda** and **Sam Yee** for the Grand Opening Day banner and signs, support of **Joe Grech, Keith Kreisel**, and **Steve Corr** (Steve Peterson and other gardeners: **John Lok, George Sherer, Ronald Anderson, Victor Evangelista** and **Mark Ewing**), and our custodian **Denis Phan**, all of Buildings and Grounds Department; the delicious and beautifully presented refreshments; the work of our own faculty, staff, and **Cindy Hart**, pastry chef, and students from Culinary Arts and Hospitality; the floral arrangements by **Steven Brown** and **Pat Morgan** of our Ornamental Horticulture, Audio visual department staff, the Broadcast media staff and students, the beautiful string leis lovingly made by **Margaret Mendiola** to add to the Aloha

spirit, the delicate touches of plants, and chocolates for **Nancy Pelosi** by **Barbara Conahan**, display of flowers throughout the office by **Sarah McCuskey**. My deep appreciation for **Donna O'Rourke, Juddie Woods, Paula Cahill, Christy Li, Brenda Evens, Barbara Conahan, Sarah McCuskey, Chris Brodie, Eri Ikeda** and host of student workers for keeping the clinic going while the Grand Opening event was steaming ahead and to my dear friends such as, **Chet Roaman, Gabriella Schultz, Alvin Jenkins, Nadine Rosenthal** and **Diane Goldman** (for unpacking) and for being hosts and hostesses; my friends **Seth** and **Diane Bernstein** for a wonderful plaque and an original song for the occasion; my sons and friends who understood that for a while I needed to be totally dedicated to the new Health Center and finally my brilliant, supportive and understanding husband who allowed me to be married to the new Student Health Center for soooo many months.

To you all and to those I forgot to name, a deep gratitude from the bottom of my heart. It is an Honor and a Pleasure to work with you all. We have done much good work and much more good work is ahead of us.

Sincerely,

**Sunny Clark**

# Library Research/Information skills workshops listed

By **Bonnie Gratch-Lindauer**

Coordinator, Library Instructional Services

Please let your students know about the following Library Research/Information Skills Workshops for Fall 2006.

The information competency graduation requirement begins this Fall semester. Students satisfy the requirement by successfully completing their Area B written composition requirement, which means either English 96, English 1A or ESL 170. All of these course outlines have been revised to include at least six of the seven information competency student learning.

Similar to writing and critical thinking skills, the development of research/information competency skills needs repetition and practice. Therefore, all department/program faculty share responsibility for helping students develop these skills. The library faculty hope that every department/program will identify a specific course(s) outline that addresses some of these learning outcomes:

1. Recognizing when and what type of information is needed;
2. Developing effective research strategies appropriate to the research question and audience;
3. Locating and retrieving information in a variety of formats/media;
4. Critically evaluating, selecting and synthesizing information;
5. Effectively communicating, presenting and documenting information;
6. Effectively using computers and other information technology tools to find and present information;
7. Understanding the legal and ethical issues relating to information and its use.

The library research/information skills workshops give students practice developing several of these skills. Taught by library faculty, the workshops are offered

on a drop-in basis, and students must complete a practice assignment after the workshop. After correction of the assignment, librarians provide a proof of attendance/completion slip which can be submitted to course instructors.

## CCSF faculty can borrow books from libraries at SFSU, UCB

Good news for faculty who did not know that their CCSF identification card is useful at some university libraries. Library books at San Francisco State University may be borrowed at no charge by presenting your CCSF identification card and your CCSF library card. A one-semester "Special Borrower" card will be issued to CCSF faculty with borrowing privileges of one month for books. Your CCSF ID card also gains you access to UC-Berkeley materials, but if you want to borrow from UC Berkeley, you will need to obtain a letter from the CCSF Library Dean and/or the Vice Chancellor of Academic Affairs.

## Administrators first up for payroll EFT transitioning

**Donald Lind**, Director of Payroll Services has announced that City College of San Francisco is transitioning to an all electronic pay method. This payment method includes paying all employees via EFT (electronic funds transfer) and providing pay advices via GroupWise. Vice Chancellor **Peter Goldstein** has decided that the first group to transition will be Administrators..

Currently administrators participate in the EFT (direct deposit) program, but do not receive their pay advices via GroupWise.

Effective 9/19/06 administrators' pay advice will be sent to them via e-mail. The advice is in the identical format of the current paper advice. There are no privacy concerns as the advice does not include any confidential information such as Social Security Numbers or bank account information. All information on the advice is considered public record.

If you prefer to access your payroll information by RAM Pay (Web 4) you may choose not to receive your advice via e-mail by notifying Lind prior to 9/15/06.

Please do not hesitate to contact Lind if you have any questions. He can be reached by telephone at (415) 241-2338; by fax at (415) 241-2283; and by email at [dlind@ccsf.edu](mailto:dlind@ccsf.edu).

## Student Services Fair September 13

Please invited your students to the 4th annual Student Services Fair to be held **Wednesday, September 13, 10 A.M.–1 P.M.** in Taste Buds. If your department would like to host a table, have a representative call **Tessa Henderson-Brown** at 415-239-3530 or email her at [thenders@ccsf.edu](mailto:thenders@ccsf.edu).

## OBITUARY

---

### Robert (Bob) Gurney

Dr. **Robert (Bob) Gurney**, 63, one of the first City College faculty members to teach an online course, passed away on August 20. Born and raised in Grosse Point Farms, Michigan, Bob earned his BA from the University of Detroit, and an MA and Ph.D. from Michigan State University. He visited San Francisco in 1993 for his 50th birthday and decided that he didn't want to leave the Bay Area. In 1995 he joined the faculty of City College of San Francisco as a part-time instructor teaching Statistics and General Psychology in the Behavioral Sciences Department.

"Bob Gurney was a leader in the development of online courses at City College of San Francisco. He was the first person in our department to do an online course (in 2002)," said **George Shardlow**, Chair, Behavioral Sciences. "Bob then helped mentor other online instructors." "Bob was one of the best teachers we had," Shardlow continued. "I would often hear comments from students - spontaneously - about what a great instructor he was." In addition, Bob taught an online course for the Gay Lesbian Bisexual Transgender Studies Department.

"Bob's Psychology & GLST classes were always full and turning students away," said **Maureen Brownsey**, immediate past Chair of the GLBT Department. "I'm sure his great wit and empathy was why. A dedicated, good teacher, he was born to teach as a vocation. Being a teacher is both a gift and a talent. Bob was all of the above."

Bob also taught part-time at Dominican College in San Rafael. Funeral arrangements are private.
