4th Annual FRISCO Day Prepares SF High School Seniors for College
3000 of SFUSD’s Graduating Seniors Will Explore College Life; Largest Event of Its Kind in the Country

(San Francisco, CA) On Friday, April 18th, every San Francisco Unified School District high school senior will participate in the 4th Annual FRISCO Day, a citywide event at local colleges that provides exposure and preparation to students for life after high school. With increasing high school graduation rates and an economy that demands a more skilled workforce, FRISCO Day stresses the importance of attending and completing higher education and offers students a glimpse of their next step.

The event is the biggest of its kind in the nation and a partnership among SFUSD, the Mayor’s Office, Department of Children, Youth, and Their Families and host institutions City College of San Francisco, University of California San Francisco, and San Francisco State University. FRISCO Day will give students the chance to visit a campus in person, ask questions of college staff, meet current college students, and participate in workshops about financial aid and other support services.

“There is a college path for every graduating student. Thanks to FRISCO Day, students are gaining confidence and hope by learning about their options and how to reach their highest potential. San Francisco is counting on our City’s youth to become our next generation of innovators and leaders, and the City is committed to helping them succeed.” – San Francisco Mayor Edwin Lee

“To the students of San Francisco Unified High Schools: we look forward to your participation in our Frisco Day event on Friday, April 18th and know you will learn more about our offerings, campus life, and other enrollment details as you tour our campus. We look forward to seeing you on Frisco Day. Frisco Day is a great time to start the enrollment process—assessment, orientation and counseling. SFUSD seniors that have completed the enrollment process will register for classes on April 18!” – Dr. Arthur Tyler, Chancellor of City College of San Francisco

“I am proud to be a part of this robust collaboration that is working effectively to help our students in making a strong transition from high school to college. The District has been working hard to increase graduation
rates, and FRISCO Day helps set up our seniors for success in their next step after graduation.” – San Francisco Unified School District Superintendent Richard Carranza
