CCSF@cloud.ccsf.edu

Dear College Community,

CCSF has an established, robust, annual planning cycle which we build upon every year. These activities are foundational to our integrated planning and budgeting processes, spanning all areas of the College. For a general overview of what is included, see www.ccsf.edu/programreview.

As a reminder, this is an annual plan year focused on Assessment Currency, Curriculum Currency, and Allocation Requests. Department chairs and administrators use these [Fall 2017 Annual Plan Guidelines](#) as they author annual plans for their respective areas. Annual plan components are denoted with asterisks on the left-hand margin.

This year's process is well underway, per the [Key Dates](#). To promote transparency and collaboration, drafts are public. Some drafts are already available, and more will be available soon! You can view current drafts, as well as completed documents from prior years, by following instructions for [viewing public reports](#) (no login required).

Best Regards,
pam.

Pamela M. Mery, Ed.D.
Dean of Institutional Effectiveness
