Subject: SLOs in 2013-14
Date: Thursday, May 30, 2013 11:05:45 AM

What can you expect regarding SLOs in 2013-2014? Here are three previews...

We're extremely pleased to announce that Kristina Whalen has agreed to co-coordinate our SLO processes with Katryn Wiese during the upcoming academic year 2013-2014. Kristina and Katryn will equally share the workload and leadership role with 0.60 reassigned time each. Please join me in thanking Katryn for agreeing to continue her leadership role so that we can have a smooth transition during 2013-2014. And join me also in thanking Kristina for accepting this new responsibility. Working with dedicated employees from throughout the College will keep them both going -- so thanks as well to all of you for your ongoing efforts.

A particular focus during 2013-2014 will be to more deeply embed assessments into decision-making. Outcomes assessment touches all aspects of the College from course level SLOs to administrative unit outcomes (AUOs). These data can and should inform our efforts to continuously improve through program review and planning. To facilitate this integration both SLO coordinators will report to me as of 2013-2014 (per the job announcement). I look forward to working with them and with more of you as we coordinate research, planning, and assessment efforts.

Finally, please make sure your calendars are marked for September 17. This will be an all-hands special FLEX day focused on accreditation and SLOs. See you then if not before!

Pamela Mery, Ed.D.
Dean of Institutional Effectiveness
Office of Research & Planning
