Based on Headcount observed at each location in Fall 2015

LERN-1000 (Tutorial Center) enrollments were removed.

Unduplicated at each location. (A student enrolled in both credit and noncredit at one location were counted once).

Duplicated across locations. (Students with enrollments at multiple locations were counted at each location where they attended.

Therefore, summing headcount totals will exceed institutional headcount.)

Headcount consists of students who completed 8 hours of instruction, or 0.5 units in credit - per State Chancellor's Office
