CUE - Equity-Minded Teaching Institute

USC Center for Urban Education

NEW ORLEANS, LA
May 29 - June 2

Equity has proudly helped fund over 20 CCSF employees to attend NCORE!

"The NCORE conference series constitutes the leading and most comprehensive national forum on issues of race and ethnicity in American higher education. The conference focuses on the complex task of creating and sustaining comprehensive institutional change designed to improve racial and ethnic relations on campus and to expand opportunities for educational access and success by culturally diverse, traditionally underrepresented populations."

"NCORE is designed to provide a significant forum for discussion, critical dialogue, and exchange of information as institutions search for effective strategies to enhance access, social development, education, positive communication, and cross-cultural understanding in culturally diverse settings."

CUE - Equity-Minded Teaching Institute

LOS ANGELES, CA
June 4-5

Equity, AEBG, and SWP are collaborating to support funding a team of CCSF employees to attend CUE!

"The Center for Urban Education is a leader in race conscious research and develops tools that help institutions of higher education produce equity for racially minoritized students. They designed this institute for California Community Colleges and institutions of higher learning that are committed to faculty diversity and integrating a practice of equity-mindedness into the faculty hiring process."

Our purpose is to gain tools that will help CCSF achieve the institutional goal of increasing equity and diversity in faculty hiring.
All across the country, colleges are delivering developmental education in exciting new ways. Student success—measured as passing the credit bearing class—more than double in accelerated models. Schools, such as City College of San Francisco English and Math departments, are experimenting with streamlining sequences and giving students the skills they need in a college-level environment. Equity is funding a team of English faculty to attend this conference that gives faculty and administrators a chance to hear about these approaches and to discuss ways to make these approaches more successful.
