How to Find Your Wireless Card Physical Address: Vista

1. A Media Access Control Address (MAC) also known as physical address, is composed of 12 Hexadecimal digits usually written 00:0D:56:2C:0A:E8 or 00-0D-56-2C-0A-E8. You can think of it as a serial number.

2. These instructions are for Vista.
   a. Click on the Start button
   b. Click on Start Search.
   c. Type “cmd” (without the quotes) and hit Enter.
d. A DOS window will open. Type “\texttt{ipconfig /all}” (without the quotes) and then press Enter.
