

Web Site Development Techniques Certificate of Accomplishment - Active

Department: Computer Networking & Information Technology

Approval: January 2016

Effective Semester: Fall 2016

This certificate includes instruction and practice in the development, configuration and operation of web sites. Students completing this certificate program will be qualified for employment in entry-level positions in web site development and administration.

Learning Outcomes

Upon completion of this program, students will be able to:

- Develop and maintain web sites according to industry standards
- Recognize and use appropriate Web 2.0 technologies to promote or enhance the work environment
- Add interactivity to web pages via scripting programs and/or server-side technologies

Students must complete each course with a grade of "C" or higher.

The minimum time for completion of this certificate is 2 semesters. Completion time will vary based on student preparation and number of classes completed per semester.
