Collaborative Design Certificate of Accomplishment - Active

Department: Interdisciplinary Studies

Approval: October 2014

The certificate program in Collaborative Design provides students with a strong foundation in multidisciplinary approaches to design and collaboration. Our approach offers students the collaborative skills and experiences needed for success in today's workplace. The program enhances a focused study in any design discipline and also provides an introduction to design thinking and making for all students.

Learning Outcomes
Upon completion of this program, students will be able to:

- Exhibit knowledge of the historical and contemporary practice of collaboration across a range of disciplines
- Demonstrate how to work collaboratively within a creative team
- Critically evaluate and discuss the merits of various concepts and approaches to design solutions, using design vocabulary
- Employ a structured iterative process (identification, research, ideation, development, analysis, and prototyping) to solve a variety of design problems
- Apply sketching as a tool for visual problem solving
- Comprehend color theories and apply specific color harmonies in assembling creative works

The minimum time for completion of this certificate is 2 semesters. Completion time will vary based on student preparation and number of classes completed per semester.
