Ad Hoc Student Learning Outcomes Committee

SLOC Meeting Minutes May 2, 2012 1:30-3:30 Science 310

Members Present: Tom Boegel, Anna-Lisa Helmy, Lorelei Leung, Charles Metzler, Andrea Niosi
Members Absent: Bob Davis, Vivian Faustino-Pullman, Joanne Low, Guests: Daniel Archer, Erwin Barron, A. Smiley Curtis, Peg Grady, Peggy Guichard, Vivian Ikeda, John Isles, Soonduk Lee, Pam Mery, Todd Rigg-Carriero, Minè Ternar, Katryn Wiese,

1. Approve Minutes
April 20, 2012 SLOC minutes were approved.

2. Revisiting 2 of last week’s recommendations
The recommendation for “… the college provides adequate resources to assist every department in publishing a webpage on SLOs that is updated each semester” was changed to a resolution that “… department student learning outcome information be made available on the college website and ensure that it is updated each semester.”

The committee broadened the resolution to state the information be made available on the CCSF website and left the responsibility undetermined at present. Posting departmental SLO work on the web will be on the floor at the next DCC meeting.

The recommendation that all faculty be involved in SLO work each semester and that the work be documented was changed to “faculty participate in SLO work each semester and that the work be documented.” The discussion mostly focused on what it means to participate in SLO work and to what degree. The committee wanted to be inclusive in its statement rather than exclusive and thought that limiting to only full time faculty was problematic because it excludes part timers. It is understood that faculty will not participate to the same degree based on many factors, one being workload.

Both resolutions were moved, seconded and approved to go before the Academic Senate Executive Council.

3. CCSF Draft SLO Philosophy Statement
The committee discussed the entire document statement by statement, editing as needed. The revised draft was moved, seconded and approved to go before the Academic Senate Executive Council.

4. SLO Webpage Site Map - Tabled until next meeting

5. City Currents Article - Tabled until next meeting
