Computer Skills
(for persons with disabilities)

Join our class at John Adams on Tuesdays from 10:00-12:00 starting on January 19, 2010. We will learn how to use some basic computer applications like Word and Excel. We learn by the hands-on method. In other words, we learn by doing. We also learn about special adaptations for people with disabilities.

Ask at the John Adams DSPS Office, Room 106, if you are interested or call 561-1001 or 452-5481.
