Welcome
to City College of San Francisco's Telecourse and Online program!

Table of Contents
1 Enrollment and Degree Info
2–4 Telecourses
4–13 Online Courses

Books
You may order books online from the CCSF bookstore for either mail delivery or in-person pickup until the first week of classes at <http://www.ccsf.edu/bookstore>.

After classes begin, you will need to go to the bookstore. You should also check the course syllabus for other class materials or books the instructor suggests.

Online Access Requirements
To take an online course successfully, students will need regular access to a computer which meets certain hardware and software requirements. Please contact your instructor or check the course website for recommendations on minimum requirements for your computer.

Students may use the open computer labs on the Campuses upon presentation of ID. Students can assess their readiness to take online courses by taking the short self evaluation at <http://www.ccsf.edu/online/courses.htm>.

Students should understand that these courses are not for everyone. To succeed, students have to be self-motivated, possess good study skills, and be independent learners. Most students find these courses to be as difficult as on-Campus courses. Online courses are not self-paced. Course assignments, quizzes and exams have deadlines. If you want to find out if online learning is for you, take this survey at <www.ccsf.edu/Departments/Distance_Education/self_eval.htm>.

NEW STUDENTS: New students to City College of San Francisco must file an application with the CCSF Admissions Office. Applications can be found in the current schedule, on Ocean Campus in Conlan Hall, Room 107, or downloaded from the CCSF web page. Call (415) 239-3285 for further information or to request an application by mail. Follow the Admission/Registration procedures on the CCSF website <http://www.ccsf.edu>.

CONTINUING STUDENTS: If you are a continuing student, follow the normal procedures for enrolling in a class.

ADDING A COURSE AFTER OPEN REGISTRATION: To add a course during the add/drop period, students must have an add number from their instructor. Students may get an add number for an online course by emailing their instructor (see course descriptions), or by attending an on-Campus Orientation providing the class is not full. If students need assistance during this process, they should call the Distance Learning office at (415) 239-3885.

Telecourses: www.ccsf.edu/telecourses
Materials are a combination of textbook, written assignments, phone and Comcast cable Channel 27 and 75 television video broadcasts. Students may also tape these programs for later viewing or see the tapes in the Media Center on the Ocean Campus. Online courses are not self-paced. Course assignments, quizzes and exams have deadlines. <www.ccsf.edu/telecourses>.

Online Courses: www.ccsf.edu/online/courses
CCSF online learning allows students to study at times and places convenient to their personal and professional schedules. The content of an online course and the time and work commitment are the same as for the lecture course. Students learn via the World Wide Web although some courses require one or more on-Campus meetings.

Degree Information
To receive a CCSF AA degree, students need to complete 60 units successfully, 18 of which must count toward satisfying the general education requirements for the California State University system or towards satisfying the breadth requirements of the UC Berkeley College of Letters and Science. In addition, students need to fulfill the CCSF Graduation Area Requirements. By taking a combination of Online courses and Telecourses, students may fulfill nine out of ten CCSF Graduation Requirements for an AA degree. Consult the catalog to learn how to fulfill the remaining requirements (Area G2). See the online and telecourses transfer information charts for further information.

MAJOR AND CERTIFICATE INFORMATION:
We now offer CNIT majors and certificates which can be earned online. As a major in Computer Networking and Information Technology
- Option in: Internet and Web Development Techniques
- Option in: Network Security

CERTIFICATES:
- Network Security
- Web Site Development Techniques

COUNSELING: For continuing students, the CCSF Counseling Department can be reached at (415) 452-5235. For new student counseling appointments please call (415) 239-3296 or email <askme@ccsf.edu>.

Disabilities
Students with disabilities who need academic accommodations should request them from Disabled Students Program and Services (DSPS) located in the Rosenberg Library, Room 323 on the Ocean Campus. Telephone (415) 452-5481 (V) or (415) 452-5451 (TDD).
