MONGOLIA: THE LAND OF THE BLUE SKY AND THE GRASS STEPPES
(Selected Resources in the Rosenberg Library)

BOOKS

This guide serves as a general introduction to Inner Mongolia, its history and culture. There are many excellent guidebooks and travelogues such as the travels of Marco Polo that were not included in this list. A couple of audiovisual titles on Tuvinian music were added to coincide with the Mongolia exhibition in the Rosenberg Library. Other related subjects are throat singing, Tuva (Russia), ger (flet tents), morin huur (horse-head fiddles), Takhi wild horses, dinosaur bones (Gobi Desert) and Central Asia.
