List of Internships by John Ho (www.ccsf.edu/apass/stem)

Internship/Research Opportunities (mostly in the summer, but check for other terms)

The time to look for Summer research and internships is now! Many REUs (Research Experience for Undergraduates) are usually paid and include expenses. Remember to review eligibility (some are for U.S. Citizens or Permanent Residents only), look at deadlines (can be as early as Nov 2011, but many are in early 2012) and gather application materials (personal statements, recommendation letters, transcripts, etc…). Many are paid experiences!

Note: For programs that have outdated info, please check their website later for updates.

Multiple STEM areas:
