Annual Institutional Plan
City College of San Francisco
2005-2006

The Annual Plan is based primarily upon the College’s New Strategic Plan adopted by the Board of Trustees in February 2003. The Annual Plan serves as an operational version of the College’s plans for a one-year period; it consists of a set of institutional objectives that are to be achieved by the College through the efforts of the college units-departments, schools and administrative operations. Thus, the unit plans are linked to the annual plan, just as the annual plan is linked to the College’s overall Strategic Plan. Implementation will follow established college processes and procedures.

The annual institutional objectives are developed in two categories: Basic Operational Objectives that support the College mission and functions, and Developmental Objectives that support new initiatives and innovations. The developmental objectives are mostly drawn from the Strategic Implementation Schedule of the College Strategic Plan. Please consult the Implementation Schedules for specific action plans that are associated with the developmental objectives in this Annual Plan. The full set of Implementation Schedules is available on line at the following URL:

http://www.ccsf.edu/Offices/Research_Planning/strategic_implement.htm

The achievement of these developmental objectives is conditional upon appropriate financial resources that may be uncertain for FY06.

Progress in achieving these objectives will be evaluated during the mid-year and end-of-year reviews. The College recognizes that changes in objectives may be necessary to adapt to new unanticipated situations. All major cost centers at the College will report their progress which will be incorporated into the mid-year and final end-of-year reports.
