Honorable Board of Trustees of the
San Francisco Community College District

Subject: Resolution No. 960829-B7
Authorization to enter into a contract for Professional Services with Integris, for technical support services in the area of system administration, problem resolution and system/data recovery for the college’s Bull computer during the period of September 3, 1996 through June 30, 1997 at a total cost not to exceed $30,000.

President and Members:

In September 1995 the college formally terminated its agreement with Hewlett-Packard (HP) to provide a re-engineered student system to operate on the college’s new HP computers. Subsequently, the college contracted with Systems and computer Technology Corporation (STC) to acquire their Banner Student System which is presently being installed on the HP computers.

During the installation of the new SCT student system package the college will need to continue to operate its old student system on its aged and unreliable Bull computer. The college will need to continue to support the Bull computer during this one to two year period.

The college has initiated discussions with Integris, a subsidiary of Bull Information Systems, who can provide qualified and specialized in-depth technical support for the Bull computer at a highly competitive base rate of $100 per hour, and additional hours at $125 per hour.

Of the $30,000 required to fund this resolution $15,000 will be available from the cancellation and replacement of a support contract. With a former employee Mary Ann Finger. This will leave the net impact of this resolution at an additional $15,000.

WHEREAS: The District needs to secure whatever technical support is required to ensure the business operations of the college in the event of experiencing technical difficulties with the Bull computer;

WHEREAS: Integris offers a technical staff qualified in all areas of Bull support;

THEREFORE, BE IT RESOLVED THAT: The Board of Trustees approves entering into a contractual agreement for Professional Services and Technical Support with Integris, to provide specialized technical advice and support services in the areas of system administration and system/data recovery for the college’s Bull computer during the period of September 3, 1996 through June 30, 1997, at a total cost not to exceed $30,000;
FURTHER, BE IT RESOLVED THAT: The Chancellor, Chief Operating Officer, and/or their designee are hereby authorized to negotiate such a contract agreement and directed to implement this resolution.

Recommended for Adoption:

Del M. Anderson
Chancellor
