ANNUAL INSTITUTIONAL PLAN
CITY COLLEGE OF SAN FRANCISCO
2000/2001

The Annual Plan is based primarily upon the College’s Strategic Plan plus other recent College plans, program reviews, studies and, most recently, college-sponsored listening sessions. The Annual Plan serves as an operational version of the College’s plans for a one-year period; it consists of a set of institutional objectives that are to be achieved by the College through the efforts of its various college units and their regular budgets. Thus, the unit plans are linked to the annual plan, just as the annual plan is linked to the College’s overall Strategic Plan. Implementation will follow established college processes and procedures.

The annual institutional objectives are developed in two categories: Basic Operational Objectives (maintenance of effort objectives) and Developmental Objectives (growth objectives as well as new initiatives). The developmental objectives are mostly drawn from the strategic priorities that are to be addressed in 1999/2000 as stated in the College plans cited in the parentheses.

Progress in achieving these objectives will be evaluated during a mid-year and end of year evaluation review. The College recognizes that periodic changes in objectives also will be necessary to adapt to new unanticipated situations. All major cost centers at the college will discuss their progress and achievements and their assessment will be incorporated into the mid-year and final end of year reports.

These objectives represent the basic maintenance-of-effort activities of the institution and account for a sizable level of the institutional resources and efforts.
