IMPORTANT NOTICE

CHANGE IN LOCATION FOR “AFTER HOURS” MEDICAL TREATMENT FOR WORK RELATED INJURIES AND ILLNESS

Employees who sustain work-related injuries are required to seek medical care at facilities designated by their employer unless they have filed a pre-designation of personal physician prior to sustaining the work injury. The City and County of San Francisco’s (City’s) designated providers are the Occupational Health Services Clinic at San Francisco General Hospital (SFOHS), open 7:30am to 4:30pm Monday through Friday; and the San Francisco Airport clinic, open 7 days a week from 7:00am to midnight.

Mt. Zion Emergency Department has been the City’s designated “after hours” provider of medical treatment for CCSF employees who require treatment for industrial illnesses and injuries outside of regular clinic hours.

The Mt. Zion Hospital Emergency Department will close on November 23, 1999.

Any CCSF employee who sustains a work related injury requiring medical attention outside of the clinic hours listed above may now obtain that care at any of the following facilities:
