Suggested objectives:

14:00:21 From Geisce Ly to Everyone:

- Review alignment of class schedule with college mission to develop strategic enrollment management principles and priorities to guide budget decisions.

- Use data and information that indicate student demand for courses and programs to prioritize course and program offerings, especially looking to close the opportunity gaps for Black students and other underserved population.

- Make recommendations on all aspects of college function that affect enrollment and growth, including marketing, targeted outreach, and registration processes.

14:08:03 From John al-Amin to Everyone:
