| *Title V, Part A*                    |                                                                              |                                                                      |
Previous Funding

- CCSF has received two AANAPISI grants in the past:
  
  - 2008: created the Asian/Pacific Islander STEM Achievement Program (ASAP) to increase the number of degrees and transfers for disadvantaged Asian/Pacific Islander and other underserved students in STEM disciplines.
    - Led to the Mathematics Engineering Science Achievement (MESA) program.
  
  - 2011: supported the development of Asian Pacific America Leaders United (APALU), a student leadership program that included coursework and internships.
Application Under Development

► CCSF is pursuing Developing Hispanic Serving Institutions Program Funding (Title V, Part A) from the U.S. Department of Education.

► Focus will be on a teacher preparation pipeline (eligible for preference points).
Project Justification

- Aligns with College Priority to "Advance Student Success and Achievement"

- This funding supports students who comprise CCSF’s achievement gap population

- CCSF can still apply for Title III, Part F AANAPISI funding when/if available

- Funding Priorities align with CCSF needs and the needs of partner institutions (SFUSD and SFSU) to grow a teacher pipeline
