The information you provide is used ONLY for our own program improvement. It is important that you are COMPLETELY HONEST in your responses. DO NOT PUT YOUR NAME ON THIS SURVEY. WE WANT TO KNOW THE TRUTH.

Now that you have nearly completed Psychology 1 here at CCSF, we would like you to complete a brief questionnaire. The “Learning Outcomes” below are specified in our official course outline. Please rate each item truthfully in term of your own current knowledge and understanding. For example, if you can accurately describe to someone without looking at your book the historical antecedents of psychology very well, then you would give that question a rating of “5”. If you believe you can only describe it “somewhat”, you would give it a rating of “3”. And if you don’t believe you could accurately describe the historical antecedents of psychology at all, or if you don’t know what historical antecedents are, then you would give it a rating of “1”. Please be completely honest in your ratings. Use the 1 – 5 scale below for each of the questions on this page.

**Rating Scale**

<table>
<thead>
<tr>
<th>Not at all</th>
<th>Slightly</th>
<th>Somewhat</th>
<th>Fairly Well</th>
<th>Very Well</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
<td>5</td>
</tr>
</tbody>
</table>

1. ____ I can accurately describe the historical antecedents of psychology.
2. ____ I can summarize and discuss how psychological knowledge is currently applied to practical problems.
3. ____ I can compare and contrast the major contemporary theoretical perspectives in psychology.
