Student Counseling Services

The **Multicultural Retention Services Department (MRSD)** was established in January 2010 and consists of five (5) academic retention programs: **UMOJA/African American Scholastic Programs (AASP)**, **Asian Pacific American Student Success (APASS)**, **Latino Services Network (LSN)**, **TULAY/Filipino American Student Success** and **VASA/Oceania Student Success**. MRSD provides comprehensive support services and other program-specific activities primarily to underprepared, underrepresented students in each of the 5 Centers/Programs. Although our Retention Centers have targeted groups, we provide services to all students. For more information, contact the Department Chairperson, one of the Coordinators, or our website at www.ccsf.edu/mrsd. MRSD provides the following comprehensive services for the purpose to promote student success:

UMOJA/African American Scholastic Programs

The goals of African American Achievement Program (AAAP) are to increase students’ ability to understand developments in the world, to think critically; to express thoughts clearly orally and in writing, and to make informed decisions.

The four components that drive the program are:

1. Early registration in certain English and Math courses
2. College Success courses
3. Library 10-Information Resources
4. Counseling Services

The counseling services component is an integral part of the instruction, which helps students acquire personal development skills. Both the instruction and counseling components are integrated. Intensive individual and group sessions provide students with educational, career and personal counseling to assist them in making appropriate choices in meeting their respective goals.

The AAAP program helps students to identify learning styles, effectively use informational resources and develop sound study habits.

The African American High School/College Program: In partnership with San Francisco Unified School District, the African American Scholastic Programs provide high school students with the opportunity to:

Peer-Mentoring and Service-Learning

The Office of Mentoring and Service-Learning offers two types of programs to increase student success and transfer, and enrich the college experience with hands-on application of classroom learning. In the Peer-Mentoring program, a student is matched with a peer mentor. The peer-mentor is a student who has experience in a particular course or program, and who provides information, advice, support and encouragement. The peer-mentor is selected by a Project Sponsor for the course or program. Mentors are currently available to students taking specific courses in science, social science, liberal arts, and vocational programs.

In the Service-Learning program, students enrolled in courses offering service-learning are placed in the community, where they apply both academic and practical skills for the benefit of society. Service-Learning integrates community service, and civic engagement with academic instruction and campus-community outreach so that each strengthens the other, and provides time for reflection and critical thinking while making significant contributions to individuals, organizations, and neighborhoods. For example, students taking biology courses may contribute to habitat restoration. In Project SHINE (Students Helping in the Naturalization of Elders), students in political science, psychology, sociology, foreign languages, and health prepare elders to take the citizenship exam.

Students involved in service-learning or volunteer opportunities may enroll (when available) in IDST 12 - Reflection on Service-Learning to share their experiences with other students (see course description).
