

PHLEBOTOMY TECHNICIAN

We will not be holding orientations for new students for the Spring 2022 semester. The Covid restrictions have limited our capacity to place students for the required work experience. We will be holding orientations for Fall 2022. The orientation dates will be posted to the webpage by April 2022, with the orientations taking place in June. Students must attend an orientation to receive an application. We regret this delay in offering the course, but the continuous changes in restrictions have impacted our placement sites. Please check the Phlebotomy webpage for updates using the link below.
