

# University of San Francisco- Transfer Update

## **FALL 2020 DEADLINE - NOVEMBER 1, 2021**

USF's priority deadline for spring 2021 transfer is coming up in just one month on **November 1, 2020**. USF is admitting transfers for all majors and all domestic students will be considered for transfer merit scholarships automatically and, if a FAFSA is submitted, need-based aid. We'll begin releasing decisions in early October on a rolling basis with the exception of nursing, which will see decisions at the beginning of November.

## **STREAMLINED TRANSFER APPLICATION + FEE WAIVER**

We know that a confusing and lengthy application is a barrier for transfer students. Therefore, USF has introduced a new streamlined transfer application available at <https://apply.usfca.edu/apply>. *We are no longer accepting the Common Application.* You can see our updated admission process and eligibility information here: <https://www.usfca.edu/admission/undergraduate/transfer-applicants>

To support students where the application fee might be a barrier, students just need to select the "**USF Dons Fee Waiver**" option when filling out the Additional Questions section of the application and we'll waive the fee.

## **VIRTUAL ON-THE-SPOT TRANSFER ADMISSION APPOINTMENTS**

While we can't be on your campus for in-person events, we still want to connect. In our quest to provide a more personalized experience for transfer students, the Office of Undergraduate Admission is offering daily 30-minute virtual 1:1 counseling appointments for transfer students. This is a great chance for students to learn more about USF and the transfer process in an intimate setting. And, if a student is seeking admission for spring 2021 for any major but nursing, we are able to offer an on-the-spot admission. Students can sign up here: <https://apply.usfca.edu/portal/transfer-admission-appointments>

## **TRANSFER NURSING - BSN PROGRAM**

Our BSN programs in San Francisco and Sacramento continue to be of great interest! To answer questions about the program, requirements, and admission process, we've created a nursing transfer requirements guide at <https://www.usfca.edu/admission/undergraduate/transfer/nursing-transfer-requirements>
