myRAM Scheduler | Troubleshooting

During registration, you may encounter some error messages preventing you from registering for your course(s).

Please consult our Registration Error Messages for information about the error and how to resolve it.

If you need additional assistance, please contact the Registration Center using our Contact Form.
A waitlist system is available to assist you in registering for your classes. If you are trying to register for a class and the class is closed and there is an open waitlist, you may place yourself on it.

If a student in the class drops and a seat becomes available, the first student on the waitlist will be sent a notification to their CCSF email account. You have 24 hours to register for the class once you have received the notification email.

It is the student’s responsibility to register for the class once notified of the opening.

Please also see our Wait List FAQ for more information regarding waitlist.

If you do not register in that timeframe, you will be removed from the waitlist and the next student on the list will be offered the opportunity to register for the class.

What if I do not get selected from the Wait List?

The waitlist will expire the day the course begins. If you are still interested in adding the course after this point, you will need to submit a Class Add Request.
**Waitlist | Adding to Waitlist**

**Step 1:** Ensure that you changed the Courses Status to show Open Classes and Full Classes w/ Open Waitlist.

- If the instructor approves your request, you will receive confirmation through your CCSF student email account. Students who obtain approval will have **3 days OR until the last day to add the course** (whichever comes first) to add the course in their myRAM Portal.

- **Once approved, students must remember to add the class (specific to CRN) in myRAM Scheduler.**

See next step Adding After Approval.

Students who miss the 3 days must submit a new Class Add Request. A Petition to Add a Class Late will be needed for requests that have expired due to last date to enroll.

To help you meet your educational expenses, City College of San Francisco is pleased to offer NELNET Business Solutions as a convenient budget plan. Nelnet Business Solutions offers a payment plan to students, for a small fee, to help facilitate the payment of your fees.

NELNET is a tuition management plan that provides you with a low-cost option for budgeting tuition and fees. It is not a loan program. You have no debt, there are no interest or finance charges assessed, and there is no credit check. The cost to budget monthly payments through NELNET is $18.00 per semester nonrefundable NELNET Enrollment Fee. The NELNET Enrollment Fee is automatically deducted from your account IMMEDIATELY.

If you need to make adjustments after your payment plan is set up, you must work with the Tuition and Fees Office. It is important to note that your balance will not be adjusted immediately if financial aid is received or a class is dropped or added.

IMPORTANT: If you have a balance due for a previous semester, signing up for the Nelnet payment plan will not allow you register until you pay off the entire balance.

Step 1: Follow the steps in Accessing Scheduler.

Step 2: Select Student Account and the Installment Plan.
