

RFP # 2022-016  
Architectural Services  
ADDENDUM TWO  
Dated: 01/13/22

## **ADDENDUM TWO**

**Issued Date: January 13, 2022**

**RFP 2022-016 – Architectural Services  
Diego Rivera Theatre Project**

**Professional Services**

**CITY COLLEGE OF SAN FRANCISCO**

## **ADDENDUM TWO**

This is **ADDENDUM TWO**. You must confirm receipt of Addendum Two in your RFP response package by signing Attachment # D - "Addenda Acknowledgement Form". Failure to acknowledge receipt of this addendum may result in disqualification of your RFP response.

### **I. GENERAL CLARIFICATIONS:**

Addendum 2 is being issued for the following clarifications, but not limited to:

1. The Space Array with approved Net Square Footage and Gross Square Footage is to be added to the RFP
2. Links to the STEAM DD Documents and the CCSF Facilities Design Standards have been added.
3. Responses to Questions received after Addendum 1 up to issuance of this addendum.

### **II. MODIFICATION TO THE DOCUMENTS:**

#### **1. Reference RFP 2022-016; Section III, Project Description;**

- a. **ADD** the following sentence to the end of Section III:

"Reference the Addendum 2 Space Array dated 2/25/21 for complete building program spaces and Assignable Square Footage. (Attached to Addendum 2.)"

- b. **ADD** the following links to the first and second bullet at the end of Section III

- STEAM DD Approval Documents  
<http://go.boarddocs.com/ca/ccsf/Board.nsf/goto?open&iid=C5BQJE6544A6>
- Design Standards  
[https://archive.ccsf.edu/en/about-city-college/administration/vcfa/facilities\\_planning/Facilities/facilities-design-standards/facilities-design-construction-standards.html](https://archive.ccsf.edu/en/about-city-college/administration/vcfa/facilities_planning/Facilities/facilities-design-standards/facilities-design-construction-standards.html)

### **III. QUESTIONS AND ANSWERS**

1. **QUESTION:** The RFP states that if a firm is unable to meet the established SLBE goal, it must provide documentation of its Good Faith Effort to meet the goals (Appendix B

refers to a "Good Faith Effort Report"). Is there a specific form, or documented outreach, that the District would like to see?

**ANSWER:** Appendix B provides a link that takes you to the CCSF SLBE web page. A subsequent link provides the forms and instructions for completing the requirements. The SLBE Policy on the CCSF SLBE web page identifies what is included in the Good Faith Effort Report and the forms provide the template to complete the information.

2. **QUESTION:** Section VI.4c. Schedule. Can the schedule be provided as a fold-out, 11x17 document? If so, will it be counted as two pages toward the total maximum page count?

**ANSWER:** An 11x17 fold out can be used in the hard copies as long as there is a pdf in the electronic copy. The 11x17 page for the schedule will be counted as an 8x11 page would be.

3. **QUESTION:** Section VI.8. Certification and Forms. This section refers to a "Certification of Department" to be completed as part of the submission. Can you clarify what this is, and/or provide the form or document to be completed?

**ANSWER:** Disregard "and Certification of Department"

4. **QUESTION:** Based on California Government Code 1090, would [Consultants that have previously provided services on a prior iterations of this project] be precluded based on the previous intel they have of the project, work and relationship with the users, as well as the previous work done for the project giving them an advantage to complete the schedule proposed?

**ANSWER:** Government Code section 1090 ("Section 1090") prohibits independent contractors that serve in advisory positions and have the potential to exert considerable influence over the contracting decisions of a public agency from any involvement in their official capacity in a contract in which they have a financial interest. Consultants that have previously provided services on a prior iteration of this project do not exert considerable influence over the Board for the current selection of the Architect of Record for this agreement for architectural services so Section 1090 does not apply.

5. **QUESTION:** Will the District consider opening the prequalification to include Architects that were shortlisted for the previous Design Build RFQ and RFP for the Diego Rivera Theater project?

**ANSWER:** No, prequalified firms from RFQ-166 Groups B and C will be considered.

6. **QUESTION:** Would the district allow a JV team consisting of at least one of the 2018 Prequalified architects from Lists B and C.

**ANSWER:** No, as provided in Addendum 1 Response, Only JV Teams in Group B and C from RFQ-166 will be considered.

7. **QUESTION:** Per the District's goals and RFP requirements is it acceptable if a consulting architect to the prime provide the theater expertise representative to support the Diego Rivera Theater?

**ANSWER:** Yes, it is acceptable for a consultant to the Architect to provide the required Theater experience.

8. **QUESTION:** Please confirm that firms registered with the State of California Department of General Services as a California Small Business meet CCSF's definition/criteria for an SLBE

**ANSWER:** Section 1.01 of the SLBE program confirms that firms listed as certified SLBEs with the State of California Department of General Services are eligible. Confirmed.

9. **QUESTION:** Will the District fully or partially use the program and design previously developed by the Design Build team or will start fresh with a new programming and design effort?

**ANSWER:** Reference Addendum 1 for the board approved program. Included in this Addendum is a pdf of the Space Array. It is intended that we confirm the existing program and expected that the design effort start fresh.

10. **QUESTION:** Do the engineering subconsultants and the landscape architecture consultant need to be in the District's prequalification list?

**ANSWER:** Subconsultants of the prime firm do not need to be on the District's prequalified list.

11. **QUESTION:** Will Cummings Cost Estimating be precluded from participating as a subconsultant?

**ANSWER:** Yes, the District intends to retain Cummings services for their own estimating and reconciliation efforts. The successful firm will be required to use a separate third party estimator.

12. **QUESTION:** Should the proposed fee be based on a percentage of the \$102,000,000 construction cost indicated in the RFP or on the 1300 to 1500 per square feet up to 77,000 gross also indicated in the RFP.

**ANSWER:** Reference Section V.6. of the RFP. The District intends to award a single lump-sum/not-to-exceed contract for the scope described, and will not accept fees with the expectation that they be modified based on the eventual cost of construction. For

the purposes of evaluating the level of effort required to complete the design, firms may assume the construction costs at the upper end of the range provided in the RFP.

13. **QUESTION:** Can you please confirm whether or not we should have a geotech engineer on our team. In the pre-proposal meeting, there was a reference to CCSF wanting potential geotech work, such as borings that may be needed, to fall under the AOR scope of work. Typically geotechnical services are contracted directly by the client/owner.

**ANSWER:** The District shall provide the Geotechnical Engineer of Record (GEOR) through a separate agreement with a third party. The District will provide past borings and soil classification in the general area of the project to the AOR for the purposes of informing future geotechnical studies specific to the building. They are by no means exhaustive. The AOR will be required to coordinate with the District's GEOR to request additional geotechnical information necessary to complete the Civil and Structural design. Additionally, it is expected that the architect will coordinate with along with the GEOR for the California Geological Survey submission.
