Introduction to team-oriented engineering design, problem solving processes, and the use of computers in the solution of engineering problems, including commercial spreadsheet applications and analysis/graphics applications. Emphasis on technical communication, teamwork, engineering design and problem solving methodologies. Multiple hands-on design projects. This in-person class has mandatory meetings Fridays at the Ocean Campus. Students will primarily complete coursework by attending in-person meetings and will also need an internet enabled device to complete some coursework in Canvas.

This course covers the principles involved in visually communicating engineering designs. Topics include technical sketching, engineering graphics and design; development of visualization skills by using computer aided drafting (CAD) software in conjunction with orthographic projection problems; emphasis on computer aided design; mechanical dimensioning and tolerancing practices and graphical analytical methods of solutions to three-dimensional problems. Assignments develop sketching and 2-D and 3-D CAD skills. The use of CAD software is an integral part of this course.

ENGN 36: Engineering Mechanics-Statics   3.0

PREREQ: PHYC 4A; Completion of or concurrent enrollment in: MATH110C Recommended Prep: ENGN 10B.
